Horizon 2020 is the EU funding programme for research and innovation

Horizon 2020 programme is running from 2014 to 2020 with a €80 billion budget. It provides research and innovation funding for multi-national collaboration projects as well as for individual researchers and supports SMEs with a special funding instrument.

For more information on Horizon 2020, please see the H2020 web site.

Topic Description

Specific Challenge:

Nanotechnology research has led to a remarkable development of nanoscale materials in bulk form with unique properties. Several of these materials are in the market or are expected to enter the market in the near future. The challenge is to establish industrial scale manufacturing of functional systems based on manufactured nanoparticles with designed properties for use in semiconductors, energy harvesting and storage, waste heat recovery, medicine, etc. This action will therefore establish synergy between EU stakeholders (research laboratories, industry, SMEs, etc.) active in this domain and to identify and resolve common challenges.

Scope:

- Establish a network of EU stakeholders that will manage information and communication among its members in the technical domains such as nano-synthesis, nanofabrication, nanostructuring, additive nanomanufacturing, nanostructure assembly, roll-

[show more...](#)

Topic conditions and documents

1. Eligible countries: described in Annex A of the Work Programme.
A number of non-EU/non-Associated Countries that are not automatically eligible for funding have made specific provisions for making funding available for their participants in Horizon 2020 projects. See the information in the Online Manual.

2. Eligibility and admissibility conditions: described in Annex B and Annex C of the Work Programme.

Proposal page limits and layout: please refer to Part B of the proposal template in the submission system below.

The screenshot shows the EU Open Data Portal interface. At the top right, there are links for Sitemap, Legal notice, and Contact, along with a language dropdown menu set to English (en). The main header features the EU Open Data Portal logo and the text "Access to European Union open data". Below this, a breadcrumb trail reads "EUROPA > EU Open Data Portal > Data", and a "Share" button is visible. A navigation bar contains buttons for Home, Data, Applications, Linked data, Visualisations - beta, Developers' corner, and About. The main content area is divided into several sections: a search bar with the text "Search datasets...", a section for "Show results with:" offering options for "all of these words", "any of these words", and "the exact phrase", and a notification that "Total datasets available: 13555". To the right, there is a "Suggest a dataset" section with the text "Is there data you would like to find on the portal?" and a "Make a suggestion" button. Below the search bar, the "Most viewed datasets" section lists several datasets, with "CORDIS - EU research projects under Horizon 2020 (2014-2020)" (45135 views) circled in red. To the right of this section, there is a "Browse datasets by themes or groups" section with icons for Agriculture, fishery, forestry and food; Economy and finance; Education, culture and sport; Energy; Environment; and Government and public sector.

RAPID-KDM Application of peptide screening technology for identification of substrates of the Jumonji-C histone demethylases

ID: 657292

From: 1 October 2015 to 30 September 2018

In recent years it has become evident that the functional human proteome is vastly expanded by post-translational modifications (PTMs) that modify protein function and gene expression in a time- and context-dependent manner. Misregulation of these...
